ABOUT ME

Seeking a front-end virtuoso who weaves visual enchantment into every line of code? I'm your candidate! With a year's journey through the realms of web development, backed by a foundation in graphic design and UI/UX, I craft interfaces that are not just functional but visually compelling. My passion for front-end aesthetics is matched only by my dedication to creating seamless user experiences. If you're after a developer who can blend innovation with intuitive design, let's connect and create digital magic together.

WORK EXPERIENCE

Frontend Developer 2023 - present

Personal projects and freelance

As a dedicated Front-End Developer with a year of immersive experience, I've channeled my creativity and technical acumen into a suite of personal projects that reflect my commitment to excellence in web design. My journey has been marked by a relentless pursuit of knowledge, allowing me to transform visionary concepts into interactive realities. With each project, I strive to ensure that the user interface is not only intuitive but also aesthetically pleasing, delivering an engaging user experience that stands at the intersection of functionality and elegance.

UI / UX Designer 2022 - 2023

Freelance and personal projects

I studied UI/UX design, immersing myself in the principles of creating user-friendly and aesthetically pleasing interfaces. Working on freelance & personal projects, I've applied my knowledge to real-world applications, continuously refining my skills in delivering engaging user experiences.

Video Editor 2022 - 2023

Jo Academy

I worked on various freelance projects in the past 8 years, and I worked at Jo Academy as a Video Editor for a year
